

BANK OF AMERICA THEATRE

Revision
09

Line set information

27 Linesets are provided. Normally, 9 are clear for scenery. House plot includes a main valance and drape. Main Drape opens as traveler only. Blackmasking in the order of 5 sets of legs and borders. There is a mid-stage traveler in Purple. A black scrim, a black traveler, and a white cyc.

Grid height is 60' and has a 1" x 3" metal grating deck. Battens are 44' long with 5 lift lines on 10' centers. Normal trim is for legs to make a 32' opening. Borders trim at 18'.

See separate lineset worksheet for details.

Note: clients are reminded that the lighting and sound inventory is provided as a courtesy at no additional charge. Every effort is made to keep our equipment in good working order. However, some equipment may not be available every time. Designers are asked to allow 10% for loss or repair. Inventory numbers are a guideline not a guarantee.

Seating Pit
 The area in front of the stage is a 24' deep pit that allows tiered seating in five rows. These seats are removable to allow for fill-in platforms in 4x8' increments.
Catwalks
 The catwalks over the seating area have wire mesh floors. This allows light to pass through to light in any direction.
